Experiment 5a: Reports

Aim

To configure the Membership Enrollment report with total, Membership ID, QR code and trainer.

Theory

Reports display stored records. Columns can be added from form, lookup and formula fields.

Procedure

1. Open All_Membership_Enrollments in the builder.

2. Open Configure Fields, then Add Fields.

3. Add Membership ID, Member Access QR Code, Total Amount Payable and Assigned Trainer Lookup.

4. Open the live report and scroll to the new columns.

Output

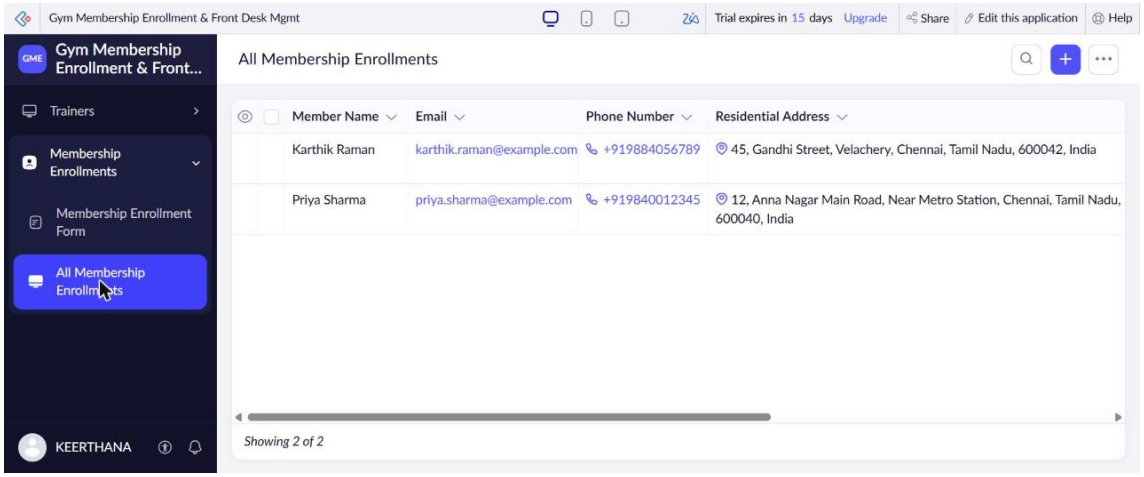

Fig 5a.1 Report with two records

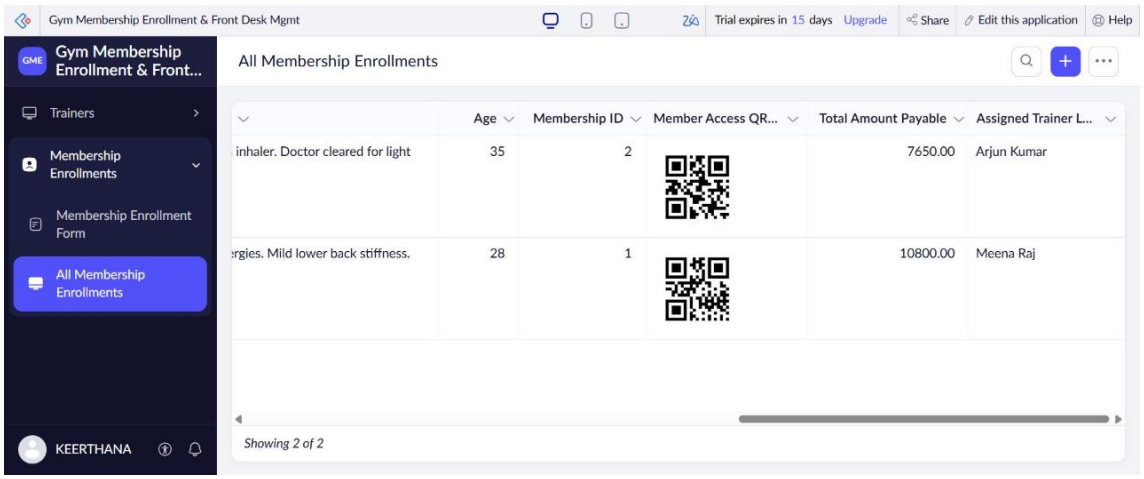

Fig 5a.2 ID, QR, total and trainer columns

Result

The report shows both records with QR code, totals 7650.00 and 10800.00, and assigned trainer.
